Celebrating Freedom

When President Abraham Lincoln's Emancipation Proclamation went into effect on Jan. 1, 1863, it signaled the end of slavery in the United States. Then why is Freedom Day or Emancipation Day, commonly known as Juneteenth, celebrated as a federal holiday on June 19 instead?

Various factors led to the continuation of slavery. Chiefly, the Civil War had yet to end, and Lincoln didn't have much authority over states still in rebellion. After Confederate Gen. Robert E. Lee surrendered on April 9, 1865, news of the war's end took time to reach every state. On June 19, 1865, Union soldiers, led by Gen. Gordon Granger, arrived in Galveston, Texas — the western-most state at the time — and announced that the war was over and slavery was abolished.

Combining June and 19, the day was named Juneteenth and sparked numerous celebrations among African American communities. Knowledge of the unofficial holiday faded as many former slaves moved north, but it regained popularity during the civil rights movement in the 1960s.

Juneteenth has been called the country's "second Independence Day" and is marked by a variety of joyous and solemn celebrations.

Juneteenth became a federal holiday in 2021.
